

To whome it may concern,

I have been with the teen parent program for about 4 months now. And it has been a wonderful 4 months. They have helped me get mine & my child's birth certficts and my ID. With out them I wouldnt have been able to accomplish what I did. Mostly because I dont have transportation, which is another thing that they helped me with. I am grateful that I am in the program. They help with all kinds of things, pretty much anything you need help with they will do it. So far every thing that I have asked for they helped me with. They provide information for me about my baby & her health and what she should be doing when she is 1, 2, 3, ~~4~~ months. I needed formula for my baby so I called them up and asked for a ride to the store to get some and they came within an hour and even payed for it. Which really helps because I have no job. Without the program I dont know what I would do they are basicly my lifeline I can depend on them for anything. when my baby gets sick they took her up to the doctors. They will do anything to help out. and I can call them anytime day or night. So please dont take the program away Its a good thing and a lot of people benefit from it & need it.

Sencerly

Katie Whitten
